

**Job title:** Assistant / Associate Professor in Logistics (Tenure Track)

**Fte:** 1.0

**VU unit:** Faculty of Economics and Business Administration

**Vacancy number:** 13393

**Date of publication:** November 28, 2013

**Closing date:** January 9, 2014

VU University Amsterdam is one of the leading institutions for higher education in Europe and aims to be inspiring, innovative, and committed to societal welfare. It comprises twelve faculties and has teaching facilities for 25,000 students.

The Faculty of Economics and Business Administration invites applications for the position of Assistant or Associate Professor Logistics for the department Information Systems, Logistics & Innovation.

The Faculty of Economics and Business Administration (FEWEB) seeks to combine high quality education with excellent research. The Faculty offers three Dutch taught Bachelor's programs (Business Administration, Economics and Business Economics, and Econometrics and Operations Research), one English taught Bachelor's program (International Business Administration), eight English taught Master's programs and thirteen executive and post-experience programs. The faculty has several research groups with an outstanding international reputation. FEWEB accommodates approximately 5000 students and 1500 postgraduate students.

### **Logistics research group**

The Bachelor programme concentrates on logistics problems of individual companies such as manufacturers, retailers or logistics service providers. The Master programme focuses on cooperation between these supply chain partners. Transport & Supply Chain Management (TSCM) is one of the master specializations of the Master programme in Business Administration.

The group is focused on research in the areas of benchmarking & performance evaluation, coordination & incentive alignment, and tactical and operational distribution planning. Within this context we offer two positions.

### **Profile**

We aim to fill the positions with candidates who have excellent capabilities and skills in teaching as well as in quantitative modelling, either in operations research or statistical analysis.

- You have (nearly) completed your PhD thesis;
- Strong potential and ambition for teaching and research in supply chain logistics;
- Background in business administration, economics, industrial engineering, logistics, operations management or operations research;
- Proven research experience in distribution logistics, witnessed by international scientific publications;

### **Tasks**

- Teach and coordinate one or more courses offered by the department;
- Perform research in distribution logistics or related areas in the context of the research programme of the department;
- Supervision of bachelor and master theses;

- Contribution to the management of the department/ faculty committees.

You will be offered a tenure track position with an initial contract of 2 years, which will be expanded with another 4 years provided that the evaluations are positive. After 5 years your tenure will be evaluated. We prefer a full-time employee (1.0 fte) but we are prepared to discuss 0.8 fte. We start inviting candidates from the application deadline onwards and the search will continue until the positions have been filled with high quality candidates.

### **Salary**

The salary will be in accordance with university regulations for academic personnel, and depending on experience, range from a minimum of € 3259,00 up to a maximum of € 5070,00 gross per month for an assistant professor and from a minimum of € 4517,00 up to a maximum of € 6039,00 gross per month for an associate professor, both based on a full-time employment.
